

Specification Sheet

Bed

The last bed you'll ever need. The MOEBE Bed is fully expandable. So whether your mattress is 90cm, 180cm or absolutely any measure inbetween – it fits perfectly. Bed is a minimal and modern bed made of a powder coated steel frame. Use it as a single 90 cm bed in the kid's room, as a 180 cm double bed in the master bedroom, or make it fit any sized mattress between the two.

Choose to use your own bed slats or take some of ours and / or an optional bedside table. The bed is fully flexible and customizable, and made to grow with you and your family as people grow and settings change. The MOEBE Bed is certified with the EU Ecolabel.
