

Specification Sheet

Tube Pendant

Tube Pendant comes in several sizes and colours. It works great both in series and alone.

The pendant itself is formed from a solid aluminum tube lined with a simple piece of translucent paper. On the bottom of the lamp, the paper can be pulled out slightly, giving the edge of the lamp a soft warm glow and at the top, the shade can easily be adjusted to allow light to be diffused upwards.

Dimensions

Small: 16 cm x 8 cm (H x Ø)
